

## Year 10 Secondary College

Students in Year 10 have the excellent opportunity each summer to experience two days of college life at South Cheshire College. The annual event sees students from the local area experience new subjects and life at the college, before making decisions on their subject choices.

Secondary College is a fantastic opportunity for students to find out more about College life and the options available to them next year. All of our students thoroughly enjoy the two days and use what they experience to help make an informed decision about their education and career path in September, when they start to apply to colleges.

Pupils choose four options they would like to experience, based on their career preference, spending half a day on each. A range of subject options are available to choose from, including Science, Maths, Law, Engineering, Bricklaying, Archaeology and Public Services.

Students will also experience the social side of college life, as they are integrated with students from other schools, giving them an opportunity to make new friends. They make their own way to the college on both days, registering with a member of staff from Shavington Academy, who will remain based at the college throughout.

The event provides the opportunity to taste a different educational setting and helps students to decide which options they are best suited to before applying. College lecturers use this opportunity to showcase their course and create an interactive learning environment.

***Year 10 Secondary College takes place on Wednesday 5<sup>th</sup> and Thursday 6<sup>th</sup> July 2017***
