

## Shavington Mathematics Assessment Calendar 2022 – 2023

On the next two pages are the planned assessment cycles per year group over the academic year 2022-2023.

All dates are subject to change and pupils would be notified accordingly, should this happen.

### RFP – Responsive Feedback Points

These are short skills-based tasks focussing on content not necessarily taught during the academic year, but identified as core essentials for all pupils and can be assumed knowledge from previous learning.

It is imperative pupils revisit the core knowledge frequently, to support their understanding and use these core skills as the foundations to build on, and support their development within maths.

### Progressive Feedback Points

These are tasks used to check the retention of new content taught during the academic year. The first progressive feedback point of the year will include content from the previous academic year. Topic lists of content covered are shared with pupils in advance of the task on Microsoft Teams, to support their preparation.

<b>Week Commencing</b>	<b>Year 7</b>	<b>Year 8</b>	<b>Year 9</b>	<b>Year 10</b>	<b>Year 11</b>
